**Dear Mr Ralph Maurer**

The organizing committee, directorate and participants of the International Festival of Children's Creativity "ZOLOTIY LELEKA" ("*GOLDEN STORK*") express their great gratitude for the help provided for the implementation of this international project. You gave an opportunity for the participants of the festival to present their own talents and skills, and for the children of Ukraine to distance themselves from the realities of the war in the country.

You helped us create a celebration of talent, creativity and effort, flight of imagination and professionalism, love for children and devotion to the native land, its traditions and culture.

*Thank you from the bottom of my heart for your help!*

General director of  
the festival

**Anna Matveeva**
